

## human capital management software

CBARS Human Capital Management Software

*Proud integration partner with nuQ payRoll*

Since 2001 CBARS laid the foundation for the most comprehensive, user friendly and flexible Human Capital Management system by implementing best practice modern day thinking in HR Management. CBARS, (Competency Based Assessment & Recruitment Solutions) was born and over the years many different modules were added, rapidly making CBARS today a rising market leader in the growing sector of Total Talent Management Solutions, supporting the entire talent life cycle of our customers. Our web-based applications are completely scalable and integrate seamless into your existing IT infrastructure as either a modular or as a standalone solution. In conjunction with our nationally renowned customers, our own and partner teams together with superior research methods used, we have continued to develop and improve our solutions for more than 8 years.

*This state of the art suite of hr management tools encompasses, among other, the following modules...*

job competency profile -	- competency assessment
performance review, up to 360° -	- recruitment
strategic learning contract -	- training management
employment equity -	- individual target setting
employee/strategy alignment -	- career and staff planning
workplace skills plan reports -	- electronic tests
policies & procedures -	- compliance module
